

# SASB/CDSB: "TCFD Implementation Guide" Seminar

## October 10, 2019

Investors have recently become increasingly worried about the impact of climate change on business. In reply to this, in 2017, the G20 summit of finance ministers and central bank governors requested the Financial Stability Board to set up a Task Force on Climate-Related Financial Disclosures (TCFD), which released its final recommendations (the TCFD Recommendations) in June 2017.

In Japan, spurred on by the establishment of a "TCFD Consortium" in May this year, over 180 companies have declared their support for the TCFD Recommendations. In the coming months, as well as more declarations of support, we hope to see practical implementations of TCFD-based information disclosure, as well as deeper, more detailed disclosures.

To help listed companies with this goal, in May this year the Sustainable Accounting Standards Board (SASB) and the Climate Disclosure Standards Board (CDSB) published a "TCFD Implementation Guide", and this has now been translated into Japanese. JPX is holding this seminar to introduce and explain the guide for the benefit of our listed companies.

Date	October 10, 2019 (Thurs) 14:00 - 16:20 (Registration from 13:30)
Venue	The Tokyo Shoken Building (8th floor hall) 1-5-8 Nihombashi Kayabacho, Chuo-ku
